

Flood Plan for Parents

1. If it looks like flooding where you live or on your route to school, please keep your children home.
2. If an overnight decision is made to close the school because it is non-operational overnight, announcements will be made over local radio stations ZZZFM (100.9 FM) and 2LM (900 AM).
3. If buses are not running, announcements will be made on local radio stations.
4. If flooding occurs during the school day the following may happen:
 - a) Bus companies will contact the school to indicate they will be coming early to collect students. The school will contact parents to advise of this change.
 - b) The school closes and becomes non-operational. The school will contact parents to collect children.
 - c) Parents may decide to collect their children from school early.
 - d) At least one staff member will remain onsite until students are collected.

Note: Parents, please ensure that your day contact numbers, and your Emergency Contact person's details are up to date. Any changes should be forwarded in to the school.

Regards,

Louise Tate
